Together

How does Stella's Circle prepare candidates for work?

We screen for fit, not just interest - Candidates are matched based on skills, goals, and readiness for your workplace.

We build strong workplace basics - Reliability, communication, teamwork, and showing up on time are core expectations.

People gain real work experience first - Participants practice work routines in supported, real-world settings.

Candidates come with certifications such as Safe Food Handling, Service Best, First Aid and/or WHMIS.

Challenges are addressed early - Supports are in place before someone is referred, reducing difficulties on the job.

Referrals are readiness-based - We connect you with people who are prepared to succeed and stay employed.
